Continuation of Disposition of Claims: Claims subject to restriction and/or election requirement are 1,6-23,25-29,34-36,38,39,41,43-54,56,57,59-61,63,69-80,85-97 and 99-113.

DETAILED ACTION

1. Claims 1, 6-23, 25-29, 34-36, 38, 39, 41, 43-54, 56, 57, 59-61, 63, 69-80, 85-97 and 99-113 have been examined.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claim 1, 6-23, 25-29, 34-36, 38, 39, 41, 56, 57, 61, 63, 69-80, 97 and 99-113, drawn to selecting a product or service for a user by a third party such that the user will purchase the product or service, classified in class 705, subclass 14.
 - II. Claim 43-54, 59, 60, 85-96, drawn to selecting a retailer for a user by a third party where the user will make a purchase of a product or service at that retailer, classified in class 705, subclass 14.

Inventions I and II both are based on different sets of Independent claims. The Amendment dated 2/22/05 groups the sets of claims into these groups I and II on page 47 and 53, respectively, of that Amendment. Group I involves selecting a product for a user such when the user is brand indifferent to that product. Group II involves selecting a retailer for a user where that user will make a purchase at that retailer. Selecting a product that the user will purchase and selecting a retailer where the user will make a purchase are different inventions that require different searches. Group I involves a unique search. Group II involves a search for prior art such that the user selects retailers, merchants, or advertisers that the user has agreed to receive advertisements from or to do business with.

Art Unit: 3622

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Jason Schinter on 3/24/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
